Review Date: March 2027

Governor/Trustee Approval: May 2026

Personal, Social, Health and Economic Education (PSHE) is our comprehensive curriculum for supporting children's personal development, health, wellbeing and understanding of relationships. We are required by law to teach **Relationships Education** and **Health Education** to all primary-aged pupils. We deliver these statutory subjects within our broader PSHE programme. As an infant school (ages 4–7, we do not teach sex education, instead our focus is on friendships, families, safety, and feelings.

Our PSHE curriculum also includes age-appropriate aspects of **economic education**, preparing children to understand spending, saving and the world of work, and **citizenship education** including British Values, (Democracy, The Rule of Law, Individual Liberty, Mutual Respect, Tolerance of those of different faiths), helping children understand their rights, responsibilities and role in society.

This policy explains our whole-school approach to PSHE education and how we meet our statutory duties.

1. Our Vision for PSHE Education

At St Anne's Infants' we believe every child deserves an education that prepares them not only for academic success but also equips them with the tools to thrive as rounded individuals in modern society. Personal, Social, Health and Economic (PSHE) education sits at the heart of this commitment.

PSHE is not an add-on to our curriculum; it is fundamental to our children's development as confident, healthy and respectful members of society. Through high-quality PSHE, we equip pupils with the knowledge, skills and attributes they need to stay safe, maintain wellbeing, and build positive relationships throughout their lives.

Our curriculum is carefully designed to be developmental and progressive. From the moment children join our school, they begin to explore emotional literacy—learning to recognise, name and talk about feelings. This foundation grows year by year, helping pupils to manage emotions, develop resilience, and make informed decisions that support their own and others' wellbeing.

By embedding PSHE across our school culture, we nurture a community where respect, inclusivity and personal responsibility flourish. In doing so, we prepare our pupils not only for the challenges of childhood but also for adulthood, work and active citizenship. This approach strengthens our school values, encouraging children to become self-believers who recognise their own worth, team players who collaborate with kindness, adventurous learners who approach new experiences with curiosity, resilient individuals who persevere through challenge, and successful contributors who make a positive difference to their community.

We are committed to:

- Supporting the whole child - recognising that children's emotional and social development directly impacts their capacity to learn
- Creating a safe, inclusive environment where every child feels valued and able to discuss concerns without fear or stigma
- Building foundations for the future - providing age-appropriate learning that prepares children for the challenges and opportunities of adolescence and beyond
- Working in partnership with families, recognising that parents are children's first educators in many aspects of relationships and health
- Embedding PSHE across school life - not just in weekly lessons, but through our values, relationships, and everyday interactions

2. Statutory Requirements and Curriculum Framework

Under the Education Act 2002 and the Academies Act 2010, all schools must provide a curriculum that:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils

- Prepares pupils for the opportunities, responsibilities and experiences of later life
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

We deliver statutory Relationships and Health Education within our comprehensive PSHE programme, using materials from Jigsaw PSHE 3-7. This provides children with a carefully sequenced, age-appropriate curriculum that meets all statutory requirements whilst also developing wider personal and social capabilities.

Our curriculum addresses all statutory requirements including:

- Families and people who care for me
- Caring friendships
- Respectful, kind relationships
- Online safety and awareness
- Being safe
- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol, tobacco and vaping
- Health protection and prevention
- Basic first aid
- Developing bodies (including puberty as part of Health Education in the context of growing)

A detailed mapping document showing how the Jigsaw programme covers every statutory outcome is available to view on request and an overview is included, see Appendix A.

3. The Jigsaw Approach: A Whole-School Framework

We use Jigsaw PSHE as our curriculum framework because it provides a comprehensive, carefully sequenced scheme of work that brings consistency and progression to children's learning across their infant years. Built on current research and best practice in child development, safeguarding and health education, it is kept continuously up to date with evolving statutory guidance and enables us to deliver high-quality PSHE education that meets our children's needs. The programme is distinctive in its approach including:

Emotional literacy at the core - Every Jigsaw lesson systematically develops children's emotional vocabulary and understanding. Children learn to recognise, name and talk about a wide range of feelings in themselves and others. This emotional literacy supports children's ability to share and discuss things that are important in their lives, to seek help when needed, and to build positive relationships.

Mindful practice - Every Jigsaw lesson begins with 'Calm Me Time', a mindfulness activity designed to support self-regulation and create a safe, focused space for learning. This consistent practice forms part of our approach to children's emotional wellbeing and helps children to be ready for open, thoughtful discussion.

Connection and community - The 'Connect Us' activity in every lesson strengthens relationships within the class and develops children's social skills, building a sense of belonging and mutual respect that underpins all learning.

Developing skills for respectful dialogue - PSHE lessons provide regular opportunities for children to develop and practise essential communication skills including listening to others, expressing their

own views clearly and respectfully, considering different perspectives, and engaging in constructive discussion. These oracy skills are fundamental to building positive relationships and respectful communities, enabling children to navigate differences with kindness and to participate confidently in democratic discussion.

Age-appropriate spiral curriculum - Topics are revisited across year groups with increasing depth and complexity, enabling children to build on prior learning in line with their developing maturity and understanding, with teachers able to adapt according to their pupils' needs.

Interactive, participative teaching - Lessons are designed to be engaging and active, using discussion, role-play, problem-solving and creative activities to develop skills alongside knowledge. Children don't just gain information - they explore topics in age-appropriate ways and develop practical skills that support them in their everyday lives.

The Six Jigsaw Puzzles

Our PSHE curriculum is organised into six themed units ('Puzzles'), each taught for approximately half a term:

Term	Puzzle	Key Content
Autumn 1	Being Me in My World	Understanding personal identity, my place in the class and school community, rights and responsibilities, democracy, making a positive contribution.
Autumn 2	Celebrating Difference	Recognising and respecting diversity, challenging stereotypes, understanding difference and similarity, addressing bullying, building empathy and compassion.
Spring 1	Dreams and Goals	Setting and working towards goals, understanding aspirations and future possibilities, developing perseverance and resilience, recognising and celebrating achievements, working collaboratively.
Spring 2	Healthy Me	The relationship between physical and emotional health; nutrition, sleep, exercise and hygiene; emotional wellbeing; drug education (including medicines); keeping safe; understanding habits and making healthy lifestyle choices.
Summer 1	Relationships	Understanding different relationships and their characteristics, our families, managing friendship challenges, conflict resolution and communication skills, recognising when relationships are unhealthy, understanding loss and bereavement.
Summer 2	Changing Me	Understanding life cycles and human growth, coping positively with change, body image and self-esteem, puberty education, changing relationships

Adapting Jigsaw for Our School Community

Whilst we follow the Jigsaw programme, we recognise that our children, families and context have specific needs and characteristics. Our PSHE lead and class teachers carefully consider each lesson's content and approach to ensure it is appropriate and relevant for our pupils, taking into account:

- The specific needs, experiences and developmental stages of pupils in each class

- Pupil voice - gathered through feedback within lessons, informal discussions with children, class discussions, pupil surveys and how the children express themselves through an activity.
- Local context and community considerations
- Feedback from parents, pupils and staff
- Our school's distinctive values and ethos

Where we make adaptations to the programme, these decisions are made thoughtfully, in consultation with senior leadership, and with reference to statutory requirements. Parents and carers are informed about significant adaptations, particularly where these relate to sensitive content.

4. Curriculum Time and Whole-School Approach

PSHE is taught weekly and learning is integrated naturally into the classroom environment so that teachers can draw connections between PSHE and other areas of learning.

Beyond the Classroom: Embedding PSHE in School Life

We recognise that effective PSHE education extends far beyond weekly lessons. The skills, values and understanding developed in PSHE sessions are reinforced and 'lived' throughout our school day and across all areas of school life such as:

- Collective assemblies regularly explore PSHE themes, celebrating successes, exploring moral questions, and building whole-school awareness of current wellbeing and relationship topics.
- Our Positive Relationships and Behaviour policy reflects the principles taught in PSHE, emphasising respect, kindness, responsibility and positive conflict resolution. Adults model these values in all interactions with children and each other.
- The Jigsaw Learning Charter established in each class at the start of the year becomes a living document that children refer to and use to guide behaviour and resolve difficulties.
- Playground and social times provide opportunities for children to practise the friendship and conflict-resolution skills learned in PSHE, supported by staff who understand the PSHE curriculum and can reference learning when supporting children.
- Emotional literacy taught in PSHE develops an extensive vocabulary for feelings and emotions which is reinforced throughout the school day, with staff supporting children to name and express their feelings using the Zones of Regulation, to understand others' emotions, and to use this awareness to build positive relationships and resolve difficulties.
- Recognition and reward systems celebrate not just academic achievement but the personal and social qualities developed through PSHE – Self Belief, Team Work, Adventurousness, Resilience, Successfulness and contribution to the school community.
- Our learning environment reflects PSHE values, with working walls displaying current learning, vocabulary walls supporting emotional literacy, and visual prompts reinforcing key concepts like the Zones of Regulation, The Jigsaw Charter, feelings vocabulary, and strategies for wellbeing.

Learning Outdoors: Connecting PSHE to Our Environment

Our school actively nurtures the vital connection between physical health and mental wellbeing by creating a culture where movement, outdoor learning, and healthy habits are woven into everyday life.

We prioritise regular physical activity through PE, active playtimes, and enrichment opportunities that help our children build confidence, resilience, and a positive sense of self. Time spent outdoors is central to our approach, offering children space to explore, reflect, and enjoy the calming benefits of nature. By promoting active lifestyles and valuing outdoor experiences, we support every child to develop strong physical health, emotional balance, and a lifelong appreciation for wellbeing, recognising that unstructured outdoor play supports emotional regulation, creativity, and relationship-building

We use our school grounds and local outdoor spaces to enhance PSHE learning, providing opportunities for children to experience the wellbeing benefits of time in nature, to develop environmental awareness, and to apply their learning in varied contexts. Teachers plan regular opportunities to take PSHE learning outside where appropriate, and we encourage children to spend time outdoors during breaks and lunchtimes,.

5. Relationships and Health Education: Statutory Content

Relationships Education

Relationships Education is a statutory requirement for all primary-aged pupils. As an infants' school we do not teach sex education, and therefore there is no right to withdraw children from this aspect of the curriculum. The curriculum focuses on teaching children the fundamental building blocks of positive, respectful relationships with family, friends, peers and adults.

By the end of Year 2, our children will understand:

- Families and people who care for me - That families come in many forms and all can provide love, security and stability; the characteristics of healthy family life; how to recognise unhealthy family relationships and seek help; marriage and civil partnerships as legal commitments.
- Caring friendships - How friendships contribute to happiness and security; characteristics of healthy friendships including mutual respect, trust, loyalty and kindness; how to recognise and navigate friendship difficulties; how to make and maintain positive friendships.
- Respectful, kind relationships - The importance of paying attention to others' needs; setting and respecting boundaries; communicating effectively and managing conflict with kindness; the importance of respect and self-respect; different types of bullying and how to respond; understanding stereotypes and how to challenge them.
- Online safety and awareness - How to behave respectfully online; critically evaluating online relationships and information; understanding privacy and personal information; recognising and reporting online risks; age restrictions for social media; understanding that content online can be unrealistic, inappropriate or upsetting.
- Being and staying safe - Understanding appropriate and inappropriate boundaries; concepts of privacy and consent; that each person's body belongs to them; how to recognise when relationships are unsafe; how to seek help if an adult's behaviour makes them feel unsafe; how to report abuse and seek help with confidence.

Health Education

Health Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on supporting children to make informed decisions about their health and wellbeing.

By the end of infant school, our children will understand:

- Mental wellbeing - The normal range of emotions; how to recognise, talk about and manage feelings; simple self-care techniques; that mental health challenges are common and can be supported; where and how to seek help when needed.
- Internet safety and harms - The benefits and risks of internet use; understanding the importance of balancing screen time with other activities; recognising and displaying respectful online behaviour; age restrictions on games and apps; being discerning about online information; where to report concerns.
- Physical health and fitness - Benefits of an active lifestyle; building regular physical activity into routines; risks of inactive lifestyles

- Healthy eating - What constitutes a healthy diet; principles of healthy meal planning; risks of unhealthy eating including impacts on teeth and weight
- Medicines - Understanding that medicines can help us but must be taken with a trusted adult; knowing some things can be harmful if used incorrectly
- Health protection and prevention - Recognising early signs of illness; sun safety; importance of good quality sleep; dental health and oral hygiene; personal hygiene and germ spread;
- Personal safety - Recognising hazards and reducing risks; road, water and rail safety; when and how to seek help in emergencies.
- Basic first aid - How to make emergency calls
- Developing bodies - Understanding growth and body changes as humans grow; correct names for body parts

6. Building Foundations for Secondary RSHE

The primary PSHE curriculum is carefully designed to be age-appropriate and valuable for children's current stage of development. This learning also builds strong foundations that will support children as they encounter more complex content at secondary school. For example:

- Children learn skills for managing difficult feelings in friendships like disappointment or anger. These are essential skills for their current friendships and family relationships, and support them to behave with kindness as their relationships become more complex.
- Children learn about appropriate boundaries, privacy and consent in age-appropriate ways from early primary. This learning is crucial for safeguarding - enabling children to recognise when something doesn't feel right, to understand that they have rights over their own bodies and personal information, and to seek help when needed. These concepts become increasingly important as children develop and encounter different situations, both now and in future relationships.
- We teach children to recognise healthy relationship characteristics and warning signs across all relationships. This helps them navigate their current friendships and family relationships, with skills they'll continue to apply throughout their lives.
- Understanding of online safety, digital literacy and respectful online behaviour builds progressively throughout primary. We recognise that some of our children are already spending time online, and those who are not will have questions or concerns about the online world. Our approach is preventative, equipping children with knowledge and skills to stay safe if they do encounter online content or situations, rather than normalising excessive or unsafe internet use. This prepares children to navigate the more complex digital relationships and challenges they'll encounter as teenagers.
- Learning about emotions, mental wellbeing and self-care begins early and deepens each year. This supports children's current wellbeing and helps them manage the everyday challenges of childhood, whilst ensuring they reach secondary with established vocabulary, awareness and strategies for protecting their mental health.

This progressive, developmental approach ensures that PSHE content is always age-appropriate and relevant to children's current lives, whilst also building solid foundations for more sophisticated understanding as they mature.

Challenging Stereotypes and Promoting Respect

Throughout our PSHE curriculum, we actively work to break down harmful stereotypes, including gender stereotypes that can limit children's aspirations, reinforce inequalities, or contribute to disrespectful behaviour, and explain how all characteristics are protected under UK law. As children progress through the programme, they encounter a number of protected characteristics in age-appropriate ways, understanding why certain groups have legal protection from discrimination and how this relates to treating all people with dignity and respect.

For example, children learn that all people deserve respect regardless of their sex, and we challenge outdated ideas about what boys and girls "should" be like, what they can achieve, or how they should behave. We help children understand that boys and girls can have diverse interests, strengths, and

personalities, and that qualities like kindness, strength, nurturing, and courage are human qualities that everyone can demonstrate, not traits that belong only to one sex.

Age-appropriately, we address how stereotypes and prejudiced attitudes, including misogyny, can lead to unkind behaviour, bullying, and a lack of respect in relationships. We make clear that everyone - boys and girls - has responsibility for treating others with kindness and respect, and that harmful attitudes or language are never acceptable.

We help children learn that everyone is unique and equally important. We challenge any unkind ideas or stereotypes about race, and we make it clear that racism is never acceptable. Through stories, celebrations, play and learning about different families, cultures and traditions, we help children appreciate the many ways people can be similar and different. This helps our pupils grow up with a strong sense of belonging, fairness and respect for others, and an understanding that our world is full of wonderful diversity

This approach supports both safeguarding and the development of healthy, equal relationships, helping all children to feel valued and to respect others.

7. Inclusive Practice and Equality

We are committed to an inclusive PSHE curriculum that is accessible to and respectful of all children and families.

Meeting the Equality Act 2010

We comply with the Equality Act 2010 and the Public Sector Equality Duty, ensuring that PSHE is taught in a way that:

- Does not subject pupils to discrimination
- Promotes equality of opportunity
- Fosters good relations between people with protected characteristics and those without

The protected characteristics are: age, disability, gender reassignment, marriage or civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

Teaching about Families and Relationships

Our curriculum presents families in all their forms, recognising that children come from diverse family backgrounds including:

- Single parent families
- Same-sex parent families
- Families headed by grandparents or other relatives
- Adoptive families
- Foster families
- Kinship care arrangements
- Blended families
- Families from different cultural and religious backgrounds

We ensure that no child is stigmatised based on their home circumstances and that all family structures are represented positively in our teaching. When discussing families, we emphasise that the key characteristic of families is that they provide love, care, stability and security for children, not a particular structure.

Including LGBT Content

Throughout PSHE education, children learn that all people deserve to be treated with respect and kindness, regardless of difference. This is a fundamental principle that runs through all our teaching. In teaching about families and relationships, we include same-sex parents alongside other family structures, presented naturally as one of the many different types of families that children may have or

encounter. This content is integrated throughout the curriculum rather than taught as a standalone topic, ensuring that diverse families are visible and valued within our school community. Children learn about treating others with kindness and respect, understanding that people have protection from discrimination and should be treated with dignity and respect, and that there are laws in place to protect people's rights. Pupils learn how bullying or discriminatory behaviour is never acceptable and how to report this for themselves or others.

Jigsaw PSHE 3-11 does not include content on gender questioning or transgender topics. Our focus at primary level is on teaching children to respect all people and to challenge stereotypes about what boys and girls can do, be, or achieve, without introducing complex concepts about gender identity. For detailed information about what Jigsaw PSHE 3-11 teaches about LGBT relationships, schools can access our supporting document 'Including and Valuing All Children: What does Jigsaw PSHE 3-11 teach about LGBT relationships?' which provides specific examples from lessons and addresses common questions.

Supporting Children with SEND

Children with special educational needs and/or disabilities receive appropriate, differentiated PSHE education that meets their needs. PSHE is particularly important for children with SEND, who may be more vulnerable to exploitation, abuse and bullying. Teachers adapt lessons to ensure content is accessible, using:

- Visual supports, simplified language, concrete examples
- Additional pre-teaching or small group work where needed
- Multi-sensory approaches and practical activities
- Extended time for processing and responding
- Personalised social stories or resources where appropriate

For some children with SEND, certain PSHE content may need to be taught in different ways or at different times to ensure understanding and safety. The SENCO works closely with the PSHE lead and class teachers to ensure appropriate provision.

Respecting Religion and Belief

We respect the religious backgrounds and beliefs of all families in our school community. PSHE content is delivered in a factual, objective manner, presenting scientific and medical information accurately whilst being sensitive to diverse religious perspectives.

Where relevant, we may discuss different views held by religious communities on particular issues, helping children to understand that people's beliefs inform their values and choices. This is done in a way that promotes respect for diversity of belief whilst being clear about the law and children's rights.

8. Safeguarding and Support

PSHE education has a crucial role in our safeguarding provision, equipping children with the knowledge and skills to keep themselves safe and to seek help when needed.

Through PSHE, children learn to:

- Recognise when relationships or situations are unsafe
- Understand that abuse is never their fault
- Know a range of trusted adults they can talk to
- Develop vocabulary to express concerns clearly
- Build confidence to keep asking for help until they are heard
- Understand their rights over their own bodies and personal information
- Recognise emotional, physical and sexual abuse
- Identify risks online and in the physical world
- Develop resilience and strategies for managing difficult situations

Managing Disclosures and Concerns

PSHE lessons, particularly those addressing sensitive topics, may lead to disclosures from children. All staff are trained to:

- Respond calmly and supportively to disclosures
- Never promise confidentiality (explaining that some concerns must be shared to keep children safe)
- Listen carefully without asking leading questions
- Record concerns accurately and immediately
- Report all concerns to the Designated Safeguarding Lead without delay

Children are informed via the Jigsaw Charter at the start of PSHE lessons how confidentiality works - that personal information shared by others during discussions will be treated with respect and care, but if a teacher is worried about a child's safety, they will need to share information with people who can help.

All staff delivering PSHE education are familiar with our safeguarding and child protection policy and procedures. Where external visitors contribute to PSHE delivery, they are briefed on safeguarding procedures before working with children.

Signposting to Support

We actively encourage children to talk with their families about their worries and concerns, recognising that parents and carers are often the first and most important source of support. At the same time, we understand that for a small number of children, there may be times when they want or need to seek support from other trusted adults, and we ensure children know how to do this when needed.

Within PSHE lessons and through displays, assemblies and other communications, children are regularly informed about sources of support both within school and externally:

- Named trusted adults within school
- How to access pastoral support
- External helplines relevant to their age (e.g., Childline)
- Emergency services and how to access them

It is positive and healthy for all children to have a range of trusted adults they can turn to for support - within their family, at school, and in the wider community. Our PSHE curriculum emphasises that seeking help is a sign of strength, not weakness, and that support is always available.

9. Working in Partnership with Parents and Carers

We recognise that parents and carers are children's first and most important educators, particularly regarding relationships and health. Effective PSHE education works in partnership with families, supporting parents to continue conversations started in school and keeping them informed about what their children are learning.

Consultation and Communication

We engage with parents and carers throughout the year and when developing and reviewing our PSHE policy, seeking their views on content, approach and resources. This includes:

- Gathering parent views through ongoing communication and opportunities to share feedback
- Opportunities to view teaching materials
- Parent information sessions to explain curriculum content and answer questions
- Regular communication about PSHE curriculum through newsletters, class communications and our website

Viewing PSHE Teaching Materials

We want parents to feel informed about what their children are learning in PSHE. We provide several ways for parents to access information about the curriculum:

- **Parent Access to Lesson Materials** - Parents who would like to see the standard Jigsaw lesson plans and teaching slides for their child's year group can request access. We provide secure access codes on a Puzzle-by-Puzzle basis (each half term) for parents who specifically ask to see these materials. These show the published Jigsaw content, and we can explain any adaptations we have made for our classes. To request access, parents should contact their child's class teacher, who will provide a unique access code and link. These codes expire at the end of each half term, and parents can request a new code for the next Puzzle if they wish.
- **Viewing Materials in School** - We recognise that there is a large volume of teaching material across the full Jigsaw programme. For parents who would like to explore the materials in more depth or understand how we adapt content for our specific classes, we welcome you to arrange a time to view materials in school with a member of staff. This allows us to explain the teaching approach, answer any questions, and show how content is delivered in practice.

We actively encourage parents to engage with these resources so they can support and continue conversations at home. If you have any questions about PSHE content or would like to access any of these materials, please contact Cathy Warne (PSHE Lead).

We provide information to parents about the PSHE topics being covered each term, with suggestions for how to support learning at home and guidance on managing sensitive conversations on the School's website.

Responding to Concerns

We welcome parents' questions and concerns about PSHE education. Parents who have concerns should contact their child's class teacher in the first instance.

We aim to address concerns through open, honest discussion, sharing curriculum materials, explaining the rationale for content, and demonstrating how teaching is age-appropriate and sensitively delivered.

10. Teacher Support and Professional Development

High-quality PSHE education requires confident, well-supported teachers who have the knowledge, skills and resources to deliver sensitive content effectively.

Supporting Our Teachers

We support staff delivering PSHE through:

- **Comprehensive resources** - The Jigsaw programme provides detailed lesson plans, teaching resources, assessment materials and guidance, reducing planning burden and ensuring consistency across year groups.
- **Regular professional development** - Staff receive training on:
 - Using the Jigsaw programme effectively
 - Teaching sensitive and controversial topics
 - Managing difficult questions and discussions
 - Safeguarding and responding to disclosures
 - Creating safe, inclusive classroom environments
 - Current issues affecting children (e.g., online safety, mental health)
- **Collaborative planning and review** - to plan and share effective practice, discuss challenges, and support each other in delivering sensitive content.
- **Senior leadership support** - The PSHE lead and senior leadership team provide ongoing support, including observing lessons where helpful, advising on complex situations, and ensuring staff wellbeing.

- Access to specialist support - Where needed, we access support from external specialists including school nurses, PSHE advisors, mental health professionals and other local services to enhance staff knowledge and lesson delivery.

Creating Confident, Skilled Practitioners

We recognise that teaching PSHE requires particular skills:

- Creating safe, non-judgemental spaces for discussion
- Using distancing techniques when discussing sensitive content
- Facilitating participative, interactive learning rather than delivering information
- Responding to unexpected questions or disclosures
- Managing the balance between planned content and responsive teaching
- Supporting children who may find topics triggering or upsetting

Ongoing professional development helps our staff to develop and refine these skills, ensuring that PSHE teaching is consistently effective across our school.

11. Assessment, Monitoring and Evaluation

We monitor and evaluate our PSHE provision to ensure it is meeting children's needs, is delivered consistently across the school, and is having positive impact on children's wellbeing and development. We track children's progress to ensure learning is embedded and to identify where additional support may be needed. Assessment in PSHE focuses on

- Knowledge and understanding of key concepts
- Development of skills (e.g., communication, conflict resolution, decision-making)
- Ability to apply learning to real situations

The Jigsaw programme includes assessment materials and opportunities for children to reflect on their learning. Teachers use a range of strategies including:

- Observation of discussions, role plays and collaborative activities
- Review of written work, children's self-assessments and reflections
- Brief formative assessments to check understanding

Progress in PSHE is reported to parents as part of a child's annual school report.

Monitoring Quality and Impact

The PSHE lead, working with senior leadership and governors, monitors PSHE provision through:

- Regular review of planning and teaching materials
- Learning walks and lesson observations
- Review of children's work and assessment information
- Pupil voice activities to understand children's experience of PSHE
- Staff feedback on confidence, resources and support needs
- Analysis of behaviour, wellbeing and safeguarding data
- Parent feedback through surveys and consultation

Monitoring enables us to celebrate effective practice, identify areas for development, and ensure consistency in quality across the school.

Evaluating Impact

We evaluate the impact of PSHE education by looking at:

- Children's knowledge, skills and confidence as evidenced through assessment
- Quality of relationships between children and between children and adults
- Positive behaviour and ability to resolve conflicts constructively
- Children's wellbeing and mental health indicators

- Children's confidence in seeking help and reporting concerns
- Safeguarding data and how well children identify and report concerns
- Preparedness for transition to secondary school

This evaluation informs ongoing improvement of our PSHE provision and contributes to our annual policy review.

12. Links to Other Policies and Curriculum Areas

PSHE does not exist in isolation but connects closely with other areas of school life and curriculum. This PSHE policy should be read in conjunction with:

- Safeguarding and Child Protection Policy
- Positive Relationships and Behaviour Policy
- Anti-Bullying Policy
- Online Safety / E-Safety Policy
- Equality and Diversity Policy
- SEND Policy
- Health and Safety Policy
- Science Policy [where relevant to RSHE content]

Links Across the Curriculum

PSHE learning is reinforced through other curriculum subjects including:

- Science: Learning about the human body, life cycles, health,
- ICT: Online safety, respectful online communication, understanding how technology works and is used.
- PE: Physical health, benefits of exercise, teamwork, resilience, managing success and failure.
- Citizenship: Rights and responsibilities, democracy, community involvement, understanding diverse communities.
- Religious Education: Moral questions, values, beliefs and world views, diversity and respect.
- Literacy: Texts often provide opportunities to explore PSHE themes including relationships, diversity, moral dilemmas, resilience and identity.

Teachers actively make connections between PSHE and other learning, reinforcing understanding and helping children to see how PSHE knowledge and skills apply across different contexts.

13. Policy Development, Review and Approval

This policy was developed through consultation with:

- School staff, including teaching staff, support staff and senior leadership
- Parents and carers
- Pupils
- Governors / Trustees

The policy is informed by:

- DfE Relationships Education, Relationships and Sex Education and Health Education statutory guidance (July 2025)
- Jigsaw PSHE programme of study and supporting documentation
- Evidence from educational research and best practice

Review and Update

This policy will be reviewed annually to ensure it remains up to date with:

- Statutory guidance and legal requirements
- Jigsaw programme updates and enhancements
- Emerging needs of our pupils

- Feedback from stakeholders
- National and local developments in PSHE education

Responsibilities

The PSHE Lead is responsible for:

- Overall coordination of PSHE across the school
- Keeping up to date with statutory requirements and best practice
- Supporting and advising teachers
- Monitoring quality and impact of PSHE provision
- Leading policy review and consultation processes
- Liaising with parents and external agencies
- Reporting to senior leadership and governors

The Headteacher is responsible for:

- Ensuring statutory requirements are met
- Supporting the PSHE lead and teaching staff
- Ensuring adequate resources and professional development
- Engaging with parents, particularly regarding sensitive content
- Ensuring PSHE connects with whole-school safeguarding and behaviour approaches

Governors / Trustees are responsible for:

- Ensuring the school meets its statutory duties
- Approving this policy
- Monitoring implementation and impact
- Supporting the headteacher and staff
- Engaging with parent consultation processes

All Staff are responsible for:

- Delivering high-quality PSHE in line with this policy
- Reinforcing PSHE learning throughout school life
- Responding appropriately to disclosures and concerns
- Modelling the values and behaviour promoted through PSHE
- Engaging with professional development

Further Information and Resources
